

INSTRUCTIONS FOR DOWNLOADING TICKETS - TICKETMASTER

- A few days after purchasing your tickets, you'll receive an email from **Ticketmaster** asking you to accept them. It will look like this:

- Click on "**Accept Tickets**"
- If you already have a Ticketmaster account **created with the same email address that you indicated in your booking**, you can log in directly to that account. Otherwise, you'll have to go to the bottom of the page to create a new account at "**New to Ticketmaster? Sign Up**". **The new account must be created with the same email that you indicated in your booking.**

Use your existing email to sign in and update your password if prompted." and "New here? Use your Ticketmaster email and password." with a "Learn More" link. Below this are input fields for "Email Address" and "Password" (with a "SHOW" button). There are checkboxes for "Remember Email" and a link for "Forgot Password?". At the bottom, there is a blue "Sign In" button and a "New to Ticketmaster? Sign Up" link, which is circled in blue. A disclaimer at the bottom states: "By continuing past this page, you agree to the Terms of Use and understand that information will be used as described in both the Ticketmaster Privacy Policy and Farmers Insurance Open Privacy Policy".

- To keep your account secure, **Ticketmaster** will ask you to verify your email address and phone number. It's **important that you add your phone number without any special characters**

(dashes, brackets, spaces, symbols, etc). Afterwards, you'll receive a text message from **Ticketmaster** with the code that you'll need to enter to verify your phone number.

To verify your email address, you'll receive an email address with a code that you'll also have to enter in the corresponding window:
